No worries! I'll put something together and send it to you tomorrow.

Oops, and I should have said I'd like it by tomorrow. We can also just chat if that's easier. And it can just be half a page. I'd say don't spend a ton of time on it for now, and I can always ask you for more details next week if I need to.

Hi Xiao,

Of course – how long should the summary be?

Thanks!

Ylan

**Subject:** Summary of offshore efforts

Hi Ylan,

I'm helping Dusty and Deb Gitin prepare for the hearing on the motions to enter the three Montrose CDs. We anticipate that the Judge will be very interested in the offshore barrels even though they have nothing to do with the CDs and aren't even part of the site. Could you please give me a summary of what we know about Montrose's ocean dumping and the barrels that have been found? And how we have been coordinating with other state and federal agencies to address the problem and the next steps.

Thank you,  
Xiao
